

All proceeds from "Silent Night & All That Jazz" will support Educational Programs and Outreach Services for Hand-N-Hand of Northeastern Wisconsin, Inc.

Founded in 2002, Hand-N-Hand initiatives include Educational Programs, Parent & Community Education, and Outreach to support language, early literacy, and social and emotional development for young deaf and hard of hearing children, their families and the community throughout Northeast Wisconsin. This one-of-a-kind regional resource hosts playgroups, sign language classes, parent networking opportunities, community outings, provides early support services, scholarships, volunteer opportunities, and connects children and families throughout Wisconsin.

Every day, 33 babies (or 12,000/year) are born in the U.S. with permanent hearing loss. With 3 of every 1,000 newborns having a hearing difference, it is one of the most frequently occurring birth defects.

Approximately 120 infants are born per year in Wisconsin with hearing loss, and 90% of children with hearing loss are born to hearing parents.

To ensure informed decision-making, parents of infants with newly diagnosed hearing loss should be offered opportunities to interact with other families who have infants or children with hearing loss as well as adults and children who are deaf or hard of hearing. In addition, parents should also be offered access to professional, educational, and consumer organizations and provided with general information on child development, language development, and hearing loss. ~ Joint Committee on Infant Hearing

Thank you for your generosity and support of this unique cause!
